UK Virtual School

A School that thinks differently

Introduction

It's that time of year again when we share a preview of the updates planned for September. We want to give you plenty of notice so you can take your time to reflect, ask questions, and make an informed decision about whether you'll be continuing with us next year.

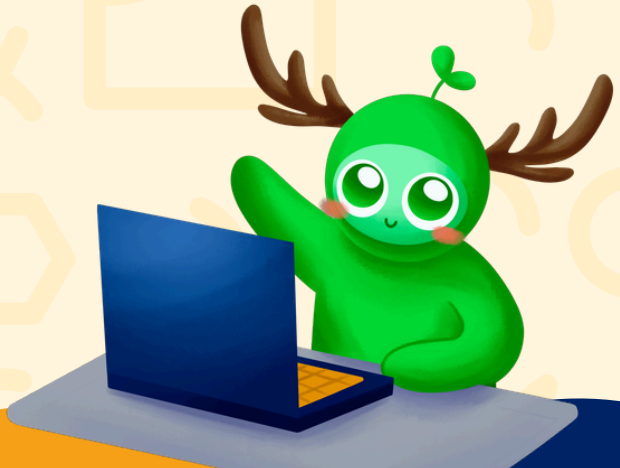
Deposit for Sept 2026

To help us confirm enrolments and plan class groups, staffing, and timetables for September 2026, we will be asking families to pay a £150 per child deposit to secure their child's place for the new academic year. This deposit allows us to hold your child's space and plan confidently for September, with timetables created based on confirmed deposit numbers.

The £150 will be deducted from your first invoice in September, so it's not an extra fee, just part of your first payment for the new year.

If the deposit isn't paid by the deadline, we won't be able to guarantee your child's place for next year, particularly in classes that fill quickly. If you do come back, you forfeit the discounts previously applied and the website prices at the time of re-enrolment will be applied

Invoices will be sent on the first week of March, and payment is due by 31 March 2026.



Update on Personalised Learning Support

Last year, we shared that we were exploring DISC-style assessments to help us better understand how each learner learns best. We are pleased to report that we have taken a UKVS approach to this.

As part of our new software rollout, we have created a parent form that gathers key information about your child, helping us tailor their learning experience more effectively.

Using this information, we have also begun setting up regular check-in and feedback appointments between families and our Tribe Leads. These meetings give you a dedicated space to discuss what is working well, flag any concerns early, and agree on practical next steps to support your child's learning, engagement, and wellbeing.

We warmly invite parents to make use of these meetings.

New Course Offerings

We are thrilled to announce several new programs and enhancements at UK Virtual School, designed to support our students' academic journeys and transitions throughout the year.

Primary & Secondary

SHORT COURSE

INTRO TO ITALIAN

We are currently exploring interest from families for a possible Intro to Italian Short Course in the next academic year. One of our wonderful teachers also happens to be an experienced Italian teacher, and we are excited about the opportunity to introduce students to a new language and culture.

Yr 4-6 Primary

PRIMARY

We are excited to introduce Primary History and Geography for Years 4–6 in addition to offering Worldviews. These new subjects will explore British History and Geography giving children the chance to explore the past Kings and Queens, and learn about different places in the UK. Lessons will be engaging and discussion-led, building strong foundations in knowledge, curiosity, and critical thinking.

New iGCSE

NEW

IGCSE ART

IGCSE Art & Design develops creativity, visual communication, and problem-solving skills that are highly valued in many careers. It provides a strong foundation for pathways in graphic design, architecture, fashion, animation, fine art, marketing, and other creative industries. Students build a portfolio that supports further study and future career opportunities.

New iGCSE

IGCSE GLOBAL CITIZENSHIP

Our Game of Life course has been popular for lower primary. We have since found this iGCSE builds on the Game if Life topics and leads to a full iGCSE. Students explore key global issues such as sustainability, human rights, cultural diversity, and responsible leadership. Through discussion and real-world case studies, they develop critical thinking, research, communication, and problem-solving skills, while understanding their role as responsible global citizens.

Yr 4-6 Primary

GAME OF LIFE COURSE

PRIMARY

Introducing the Game of Life course for Years 4–6, created in response to parent requests. Students will explore life skills like decision-making, teamwork, and problem-solving through fun, interactive activities.

Course Fee Adjustments for 2026/2027

As promised, we have not increased the fees for individual classes. However, we have made some exciting updates to our packages to make them better suited to different family needs.

Our refreshed packages are designed to offer better value for money, with more included in each option and clearer choices depending on the level of support your child needs. This means you can choose a package that fits your goals and budget, while still getting the same high-quality teaching and consistent support you expect from us. **Last year's packages are no longer available for the academic year 2026-2027.**

INTERACTIVE COURSES

What will happen again in 2026/2027

INDUCTION WEEK

During the last week of August, we will be holding our induction week once again. This gives all of our students the opportunity to meet their teachers and peers, ask questions before classes officially start, and prepare for the new academic year.

WINTER CAMP

Following the success of our first Winter Camp in 2025, we will definitely be running another camp during the first two weeks of December.

SUMMER CAMP

We are excited to host our FIRST Summer Camp during the first two weeks of August. It will be a wonderful opportunity for students to develop new skills, take part in engaging activities, and make new friends in a fun and supportive environment.

RESIDENTIAL TRIP

The highlight of our year will be our residential trip to Iceland in 2027. Although we were unable to proceed in 2026 due to insufficient interest at the time, we are delighted to offer this exciting opportunity again. We are also looking into a residential trip to Morocco in October 2026, giving students another fantastic opportunity to experience a new culture and broaden their horizons.

ONLINE EVENTS

Our themed celebrations, including Halloween, Christmas, and Lunar New Year, have brought the UKVS community together in joyful ways. We're looking forward to more festive online gatherings throughout the year!
